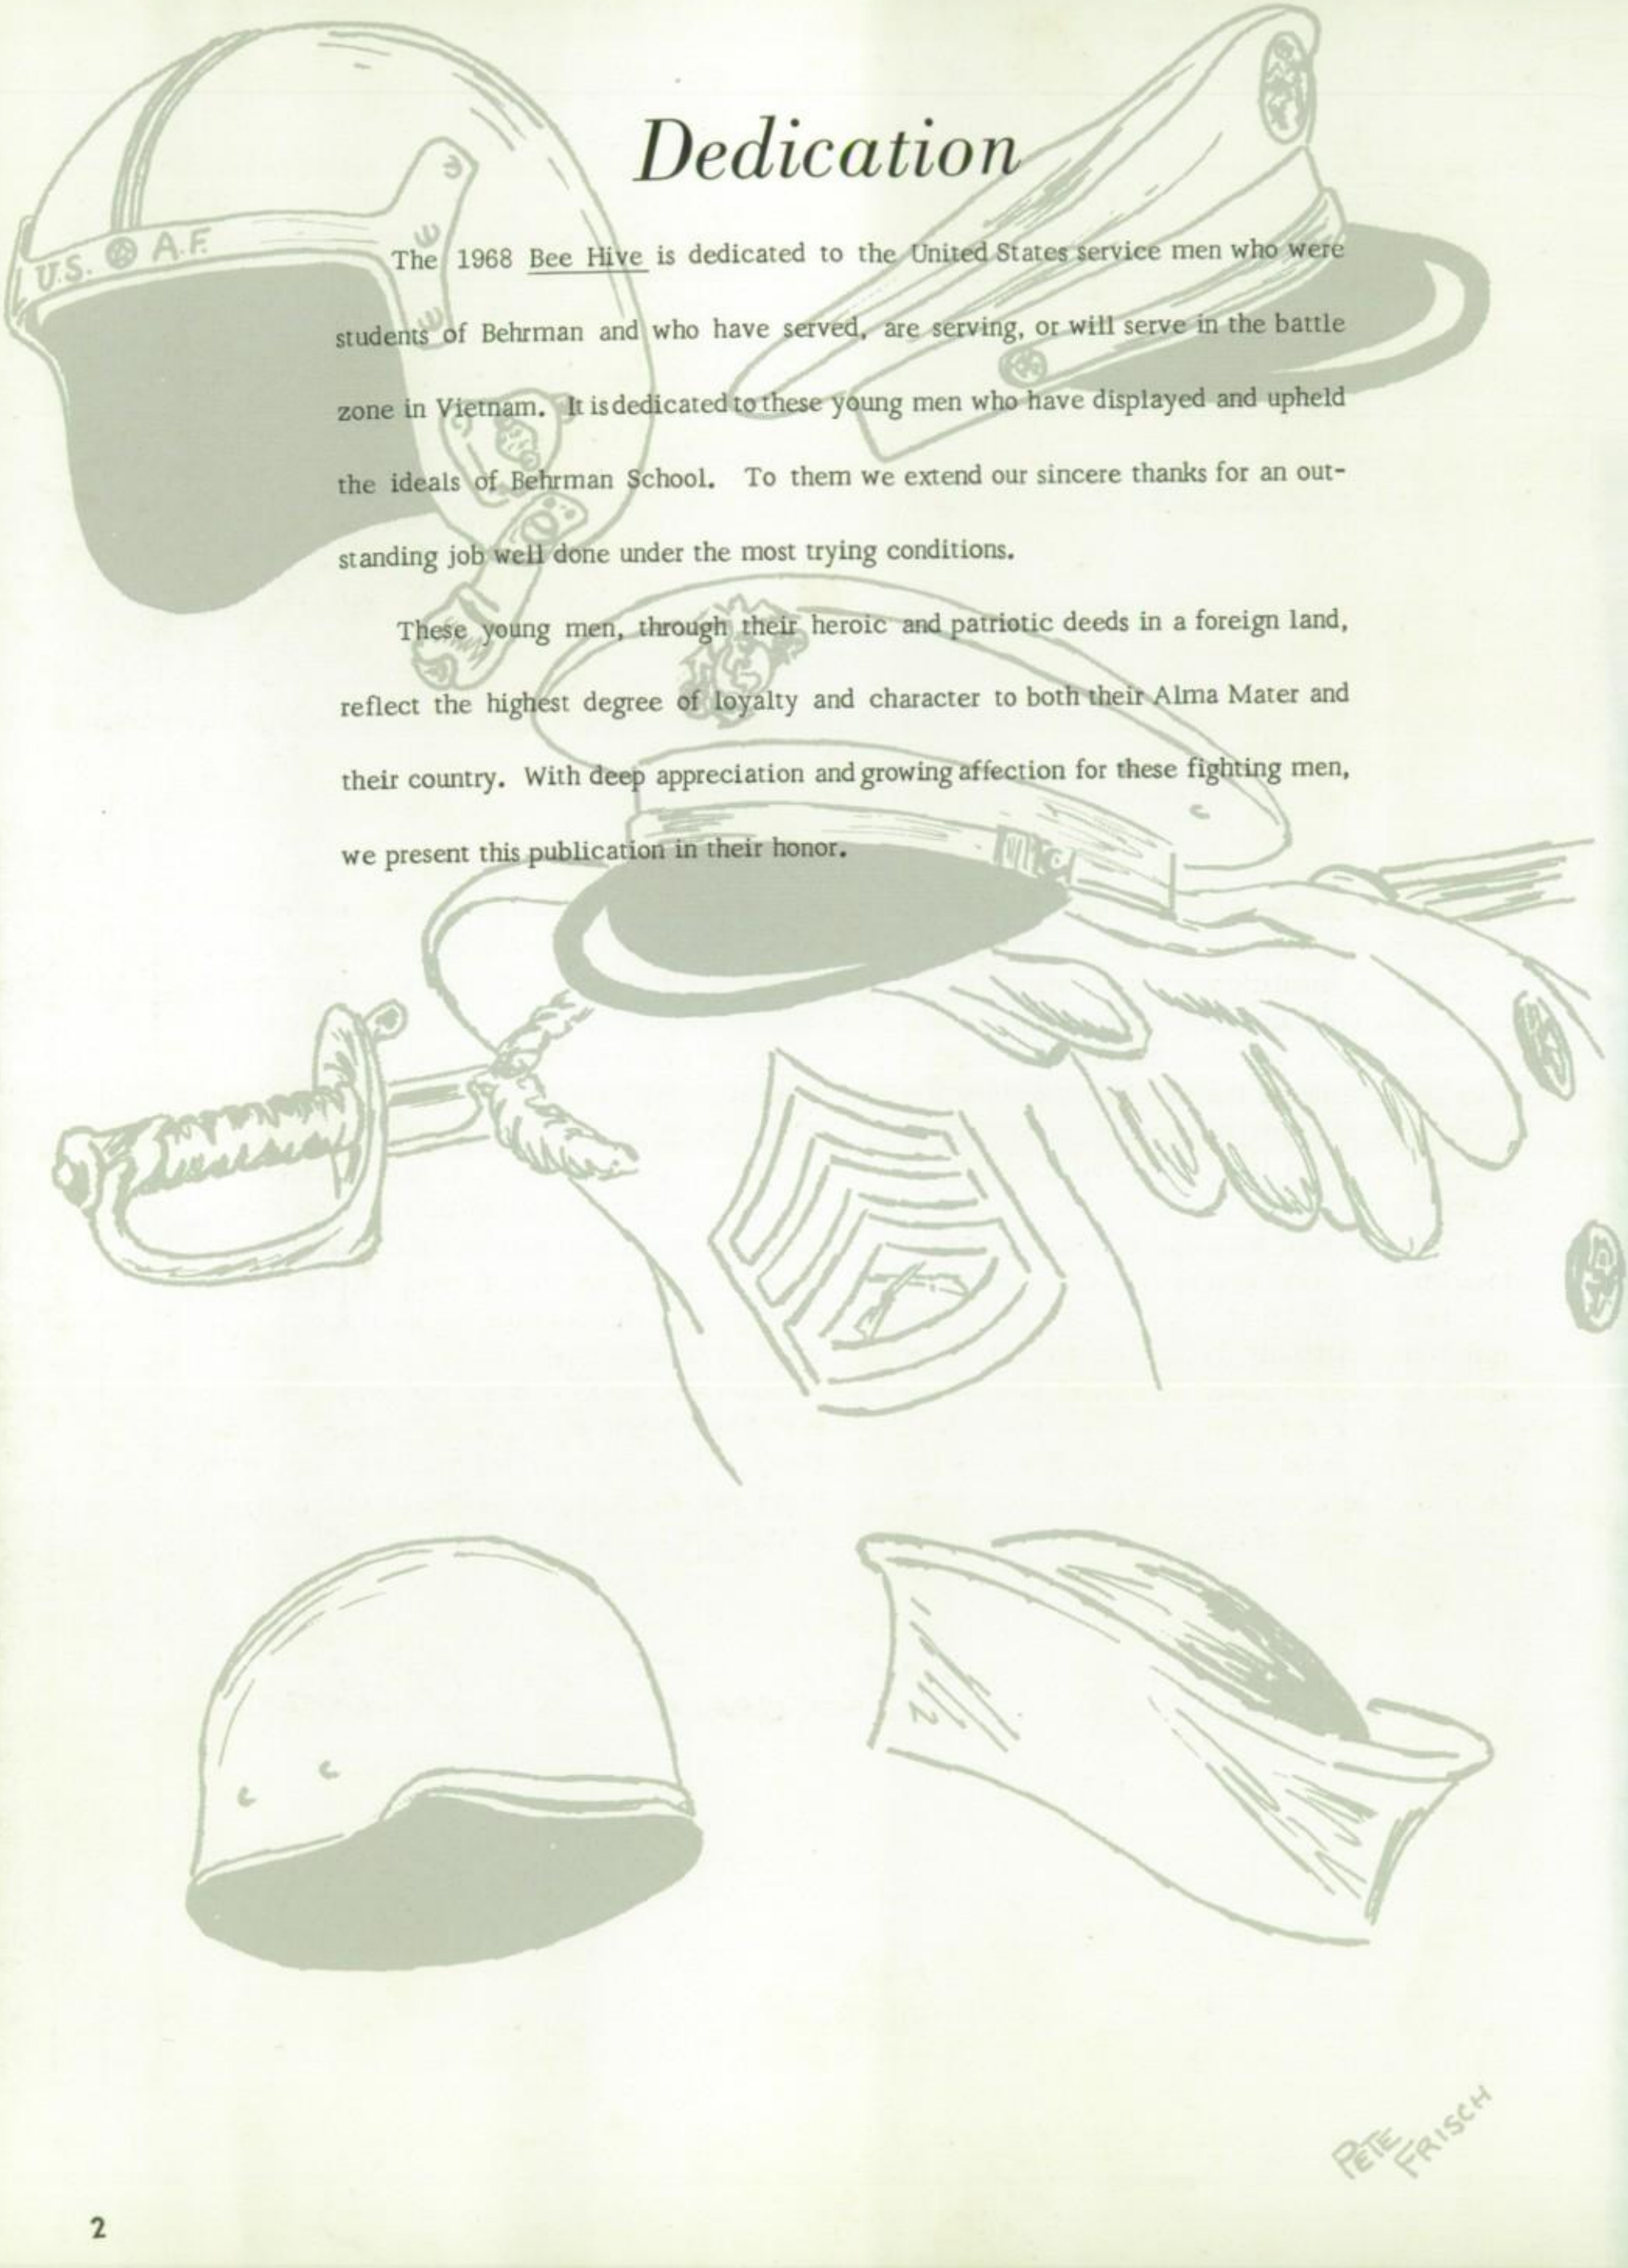
# *Dedication*

The 1968 Bee Hive is dedicated to the United States service men who were students of Behrman and who have served, are serving, or will serve in the battle zone in Vietnam. It is dedicated to these young men who have displayed and upheld the ideals of Behrman School. To them we extend our sincere thanks for an outstanding job well done under the most trying conditions.

These young men, through their heroic and patriotic deeds in a foreign land, reflect the highest degree of loyalty and character to both their Alma Mater and their country. With deep appreciation and growing affection for these fighting men, we present this publication in their honor.



# *Principal's Message to the 1968 Graduates*

*Principal Vincent A. Palisi*

It has been repeated often that the first two Commandments, love for God and love for fellow man, are the foundations of all the others. Ponder this awhile, and I am certain that you cannot think otherwise. For if you love God, you will certainly give Him the things that are His; and if you love your fellowman, you will treat him with respect and dignity, never in any way ruling against him or his.

Think of what we might accomplish, working together rather than against each other. Murder of any kind would be unheard of as would taking that which rightfully belongs to another. Wars would be taboo because if we had love for one another rather than envy for what others hold, there would be no reason for war. Poverty would be eradicated if we would share the abundant materials and wealth of this great world. God, in His infinite mercy and charity, would surely open the way to help us wipe out disease, pestilence, plagues if we would really love Him and the creatures He created.

Does this sound like the ideal world - Utopia? Perhaps it does, but what is wrong in believing in THIS ideal? We do in others of much less importance. Who knows that living as God meant us to - in perfect compatibility with Him, our fellow man, and ourselves - that this cannot be attained. None of you, I am sure, is perfectly happy with things as they are. Why not begin a new way - the way God has taught us?

You will leave us soon, and you will begin a new life. When you do, place emphasis on two things - love for God and love for man. How happy you will be if you can live with these uppermost in your hearts and minds!

*Vincent A. Palisi*

*Ass't Principal Iver Carroll*

# *Assistant Principal's Message to the 1968 Graduates*

To the 1968 Senior Class, I extend congratulations and best wishes for a happy and successful future.

As you young ladies and gentlemen leave high school, you are confronting a world that is quite different from the one faced even a short year ago.

Turmoil and restlessness within our territorial boundaries and extremely precarious situations abroad tend to make your tasks complex and your responsibilities grave.

Amid this bleakness one bright light appears on the horizon - the determination of American youth to meet and resolve problems as they occur. Faith in your ability to accept the challenges of life continues in the hearts of those who have sought to mold and develop you through your formative years.

May God grant you the wisdom and courage to successfully accept whatever life demands of you.

Sincerely,

Iver Carroll

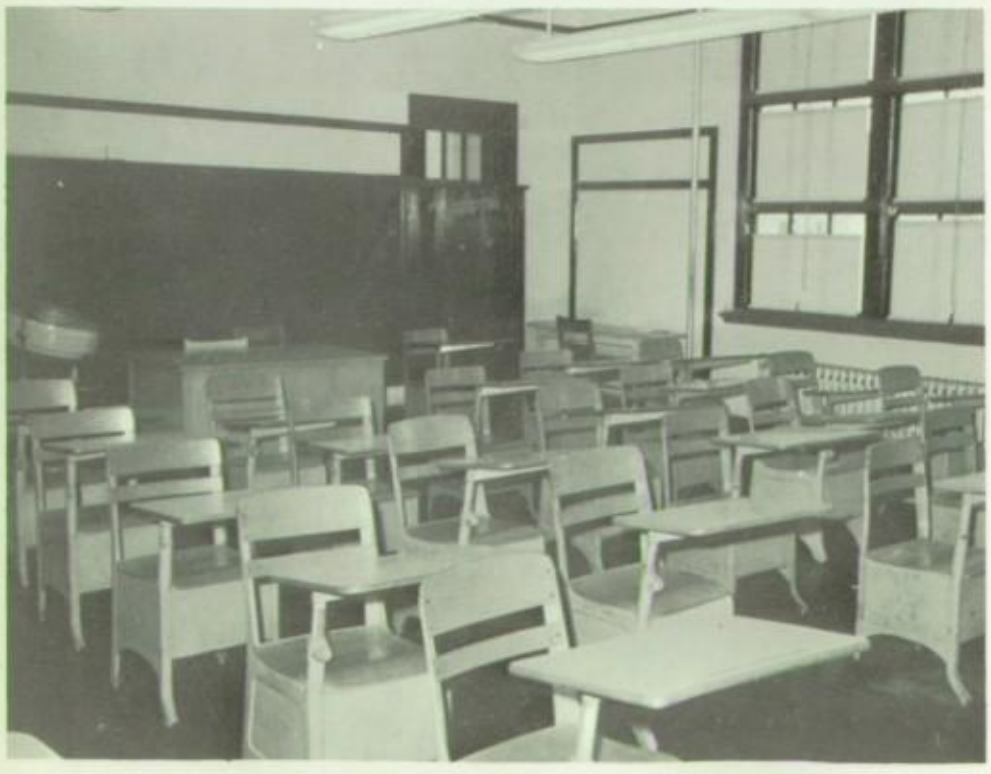
# *Have You Got That Spirit?*

Empty auditorium awaits arrival of spirited students.

What is a courtyard for?

A basement is left deserted.

Behrman maintains tranquil halls during class.



An empty classroom shows no spirit of achievement.

Look carefully at an empty cafeteria.

# *Yea, Man!*

And do Behrman students show their spirit!

A pep rally, of course.

Not for long.

But when the bell rings . . .

But, a full one does!

And watch what happens . . .

# *Pelican State*

Pelican State is an annual convention sponsored by the American Legion planned to stimulate a strong spirit of patriotism in young men and women. Delegates are given a one-week course in the mechanics of government to aid in a thorough understanding of our country's policies. They learn to respect and to use our freedoms, to have pride in our country, and to be responsible citizens. They gain not only knowledge, but also wisdom - the wisdom needed to apply the ethics of good citizenship. They learn that men exist to help other men.

The final reward of a week at Pelican State is, indeed, the great satisfaction of serving and helping someone else. Participants leave with a desire to help others and to love their country more.

Representatives are chosen in the spring of their Junior year. They are nominated by the faculty and elected by the Junior class.

Boys' Pelican State representatives were Michael Fink, John Duffy, Bill Cushing, Max Brown, and Charles Traub (not pictured).

Girls' Pelican State representatives were Terryl Sinisi, Kay Hranitzky, Judy Covell, Janice McCants, Vicki Hippard, Sylvia Reno, and Nancy Denninghoff (not pictured).

## *Advice from a Senior to a Soph*

"It's a Long Way to Tipperary,"
But "He's Got High Hopes" who will try
To "Take a Giant Step" from here,
And rise from low to high.

Just try a little harder
To be a Junior true---
What once was an "Impossible Dream"---
Will soon belong to you.

"Get on Up"----Start your climbing.
Stairs appear on demand.
The road was long and hard to tread,
But its end is now at hand.

# *Office Staff — Spirit of Helping Others*

Finally ... time for a break!

A spirit of providing help is shown by the students who give up their free-period to aid the office staff. This force of office workers insure the efficient handling of the many minor jobs such as filing, sorting mail, running errands, and operating office machines. All these students are supervised by Mrs. Erin Wohlbruck, the office secretary, and Mrs. Ethel Luft, the office clerk. Both secretaries work hard to keep the business of the school in order and to maintain the smooth operation of the school itself.

Through cooperation and good spirits, the office staff performs many services for the school staff.

"I wonder where that goes."

So that's why the phone is always busy!

# *Counselors — Spirit of Guidance*

Through the years, a spirit of guiding students has been created by our counselors here at Behrman. By analyzing each individual student's needs and goals, the counselors try to schedule the students in the classes that will help him in his later education or in his chosen occupation. They further aid those students planning to attend college with information on tests and entrance requirements of their prospective colleges. The counselors are Miss Elizabeth Schmidt, the Sophomore counselor; Miss Katherine Kenney, Junior and Senior girls' counselor; and Mr. Fahod Rossie, the Junior and Senior boys' counselor.

Kathy Griswold and Arden Andry are Miss Kenney's helpers.

Miss Schmidt discusses a class schedule with two girls.

Mr. Rossie helps a student fill out a form for college.

# *Library — Spirit of Learning Through Books*

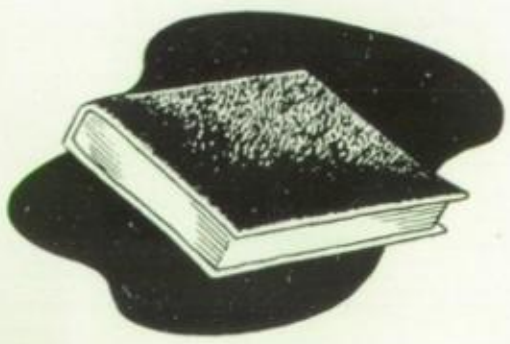
Students put the library to good use every day.

Today, as always, the library enhances the spirit of learning through books. By offering various kinds of reading material, it provides the student the opportunity to supplement his class textbooks. There is also, in our library, a wide assortment of research and reference material for the students' use in writing reports. Magazines, periodicals, and special guidebooks also add to the wealth of assistance that can be found in our library. Miss Alice Gruhler is librarian and is ably assisted by Mrs. Elizabeth Migliore.

Library helpers assist in the smooth running of the library.

The library is in use all day to assist students in their school work.

"The number of the book is somewhere in the 600."



# *Maintenance — Spirit of Cleanliness*

With the help of our maintenance staff, under the supervision of Mr. Ewing St. Germain, a spirit of cleanliness is evident throughout the school. Not only does the janitorial staff keep the school clean, but with the building engineers, they see to it that the school is supplied with heat and the many necessities required to run a high school. The cafeteria staff, under Miss Amy Brechtel, prepares wholesome, balanced meals daily for those students who choose to eat in our cafeteria.

# *English Stresses The Spirit*

Today, most teachers place a great deal of stress on the spirit of enjoying literature, rather than just studying it. It is important not only to read, learn, and sometimes memorize literature, but also to appreciate its value and to understand its deeper meaning. In our English Department, other courses, including the study of grammar, and Business English, also play an important role in the curriculum of students. Through the Repertory Theatre, tapes, records, visual aids, paper backs, and panel discussions, the learning and appreciation of English courses have been made progressively more interesting for the student.

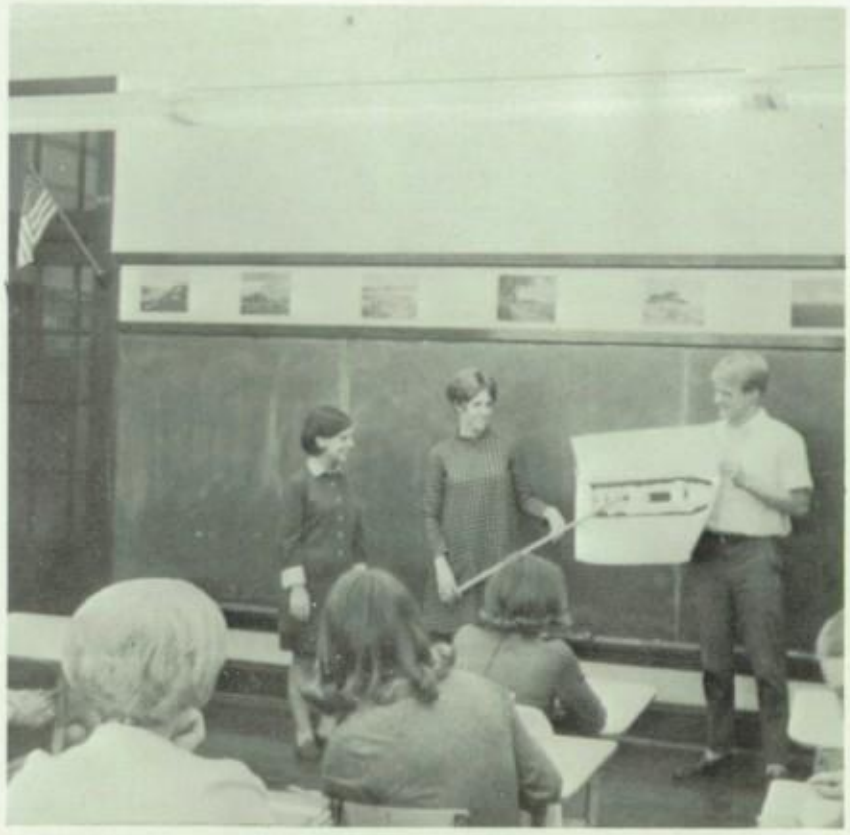
# *Speech — Spirit of Communication*

"Mirrors" is a game in which students must do as their partners do - monkey see; monkey do!

The spirit of communication with ones fellow man is incorporated in the Speech Department. The art of speaking with clarity, meaning, and self-confidence is the goal that every student enrolled in this course is striving to achieve. This art must be developed through coaching in the fundamentals of speech and through numerous classroom experiences. Included in the various studies of the speech classes is instruction in makeup, stage, and acting. The speech classes this year, attended the Repertory Theatre workshop, at which they gained a greater understanding of the performing arts.



Demonstrative speeches help students to gain self-confidence.

# *Reading Enriches Spirit of Gaining Knowledge*

The spirit of gaining knowledge in any field of study is enriched and simplified through the course of reading enrichment. This course strengthens the foundation of a person's education and enables him to obtain the most from each subject. The modern reading laboratory equipment here at Behrman makes it easier for students to improve their reading skill. This course not only teaches the student to read more rapidly, but also teaches him better comprehension of what he reads.

A spirit of deep concentration and the desire to understand are required in the study of almost any branch of mathematics. Every occupation today requires some skill in mathematics. For those careers in which a more advanced study in the department of mathematics is necessary, Behrman now offers a Computer Programming course to supplement the fifth-year mathematics course. This latest addition to the already outstanding Mathematics Department here at Behrman is a great credit to the school and to the students who benefit from its use.

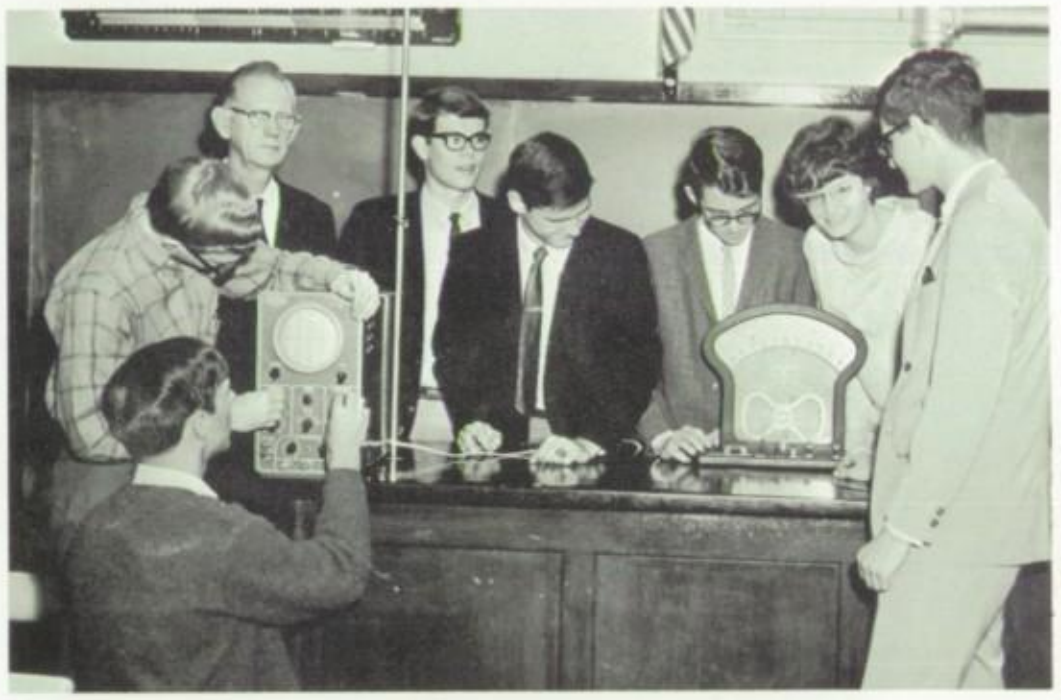
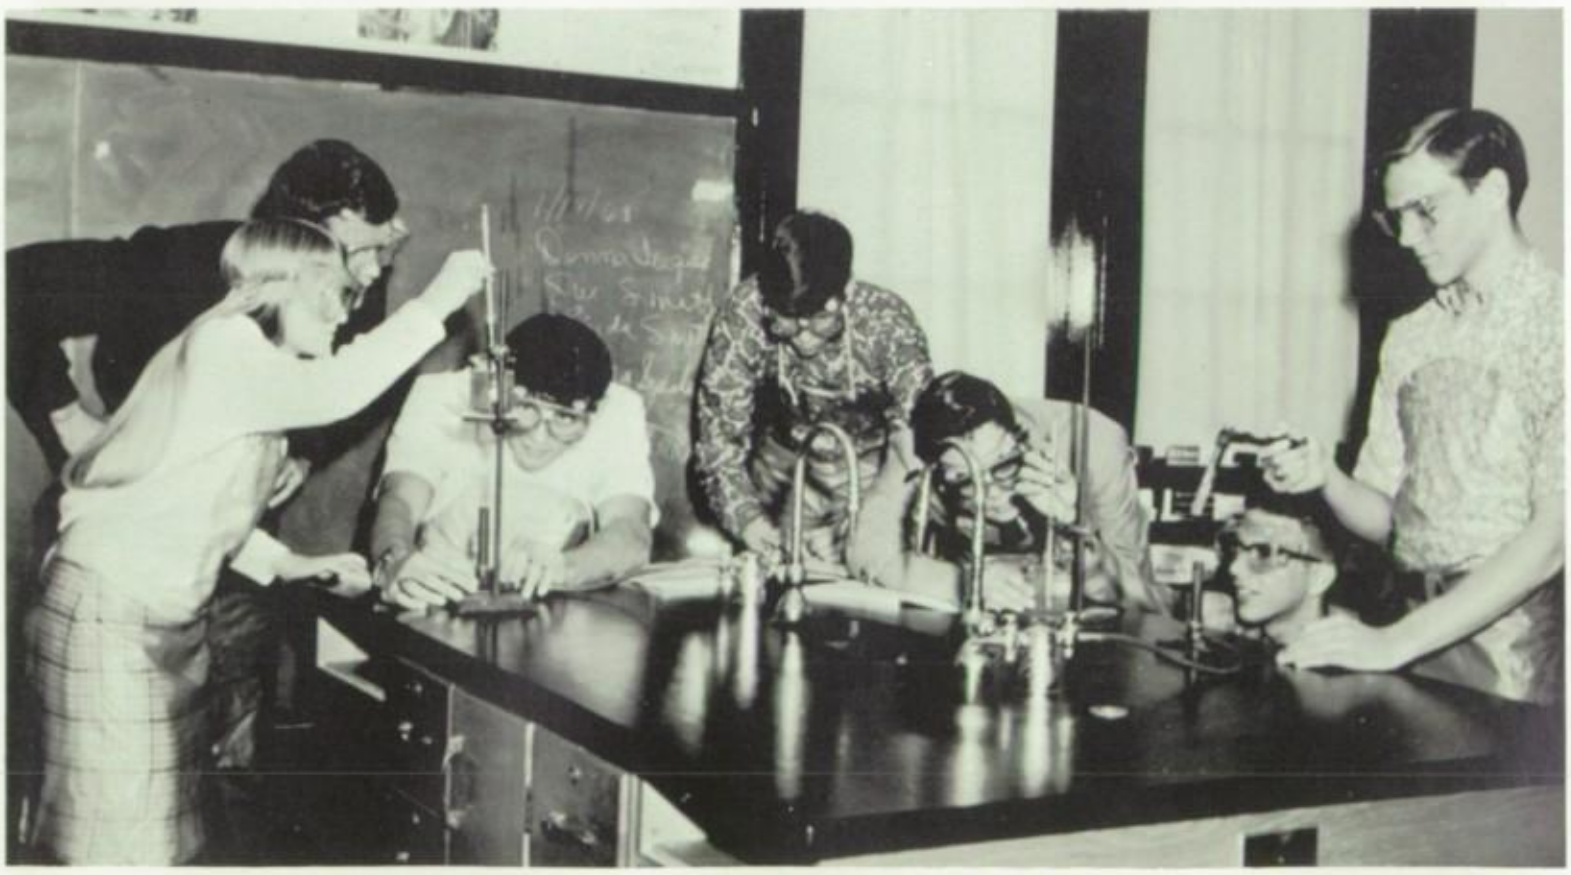
# *Spirit of Discovery*

"Have you found out what it is yet?"

Through science the spirit of discovery is awakened and fulfilled. The increasing number of successes along the road to improving humanity and easing the suffering have increased the interest of students in scientific experimentation. Students today are offered several courses of science: Chem Study, PSSC Physics, Chemistry II, General Science, BSCS Biology, and BSCS-SM Biology. The latter two courses offer an experimental and different approach to teaching biology. Each course in the Science Department has special instruments and visual aids to help the students in their laboratory experiments. In this way, the student not only benefits from the study of principles and laws, but is given the opportunity to "discover" things for himself.



Experiments are fun, but are also profitable.



A little bit of this and a little bit of that . . .

# *Social Studies — Spirit of*

The spirit of understanding the governments of today and the people in these governments is developed through the Social Studies Department. The many different courses offered by this department give the student knowledge not only of his own country's history, government, and economic system, but also an understanding of the governments and development of other countries. With this knowledge and understanding of major governmental systems, Social Studies also gives the students a keener insight into the problems of the world.

With the additional help of laboratory facilities, students find it easier and more enjoyable to master the pronunciation and meaning of the words in the foreign languages.

The language lab is a welcomed addition in the study of a foreign language.

# *Commerce — Spirit of Cooperating*

The spirit of cooperating in the business world is given in the Commerce Department. There are a variety of skills which may be obtained through the study of various phases of commerce. Among them are the following: typing, shorthand, bookkeeping, business arithmetic, and business law. The C.O.E. students go to school half a day and work in downtown offices as clerical workers in the afternoon. D.E. students profit from the business world through experience in various retail jobs with the help and guidance of their employers and teachers. # *Art — Spirit of Aesthetic Appreciation*

Mrs. Jean Anderson watches students as they display their artistic talents.

The spirit of aesthetic appreciation is fostered in our Art Department. Through the study of art, students learn to realize the beauty of the world and to express this beauty through the use of their talents. The program varies from the history of art to the painting of actual portraits. The Art Department also performs many services for the school throughout the year. One such service is the drawing of the football posters to boost spirit for each of the football games. An unusual dish isn't it?

A little back stage help is needed for a successful production.

Oh! Please come down!

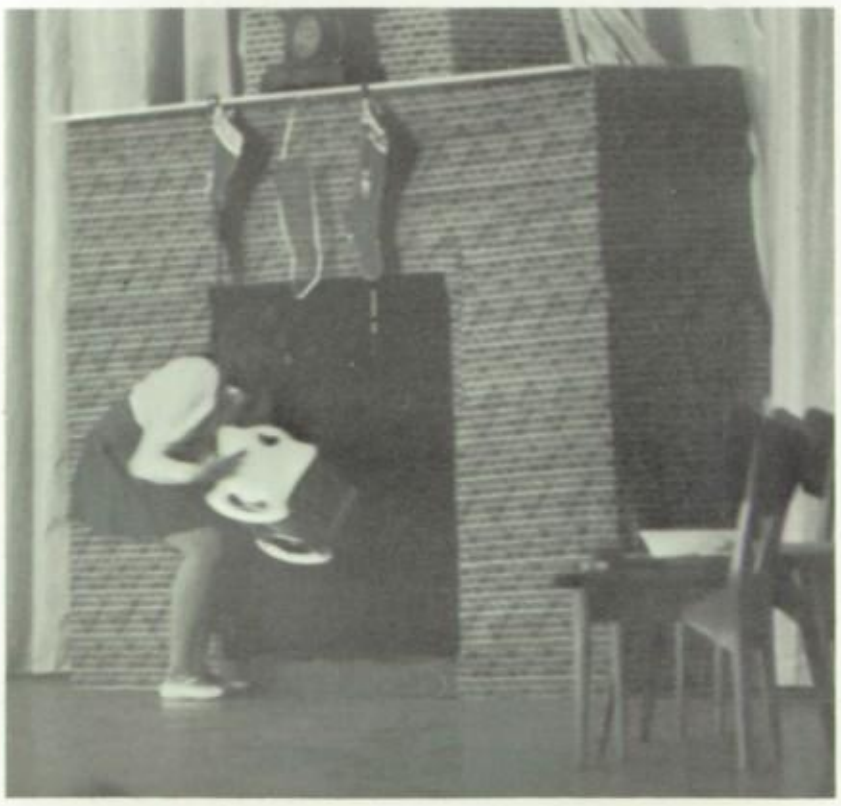
This year, the Spirit of Acting overwhelmed Behrman's stage in two major productions, "Barefoot in the Park" and "The Sound of Music". Both productions enabled Behrmanites not only to gain theatre "know-how", but to experience the thrill of an opening night, and a job well-done.

# *The Joy of Christmas Spirit*

The Boosterettes danced to "Sleigh Ride."

The Christmas show was given the Friday before the Christmas Holidays began. The band, speech classes, Boosterettes, and the Glee Club successfully put on the annual Christmas show.

"What? Santa Claus was kidnapped!"



The Boosterettes also danced to "Toy Soldier."

A bit of Old New Orleans was brought to Behrman by this swinging Dixieland combo.

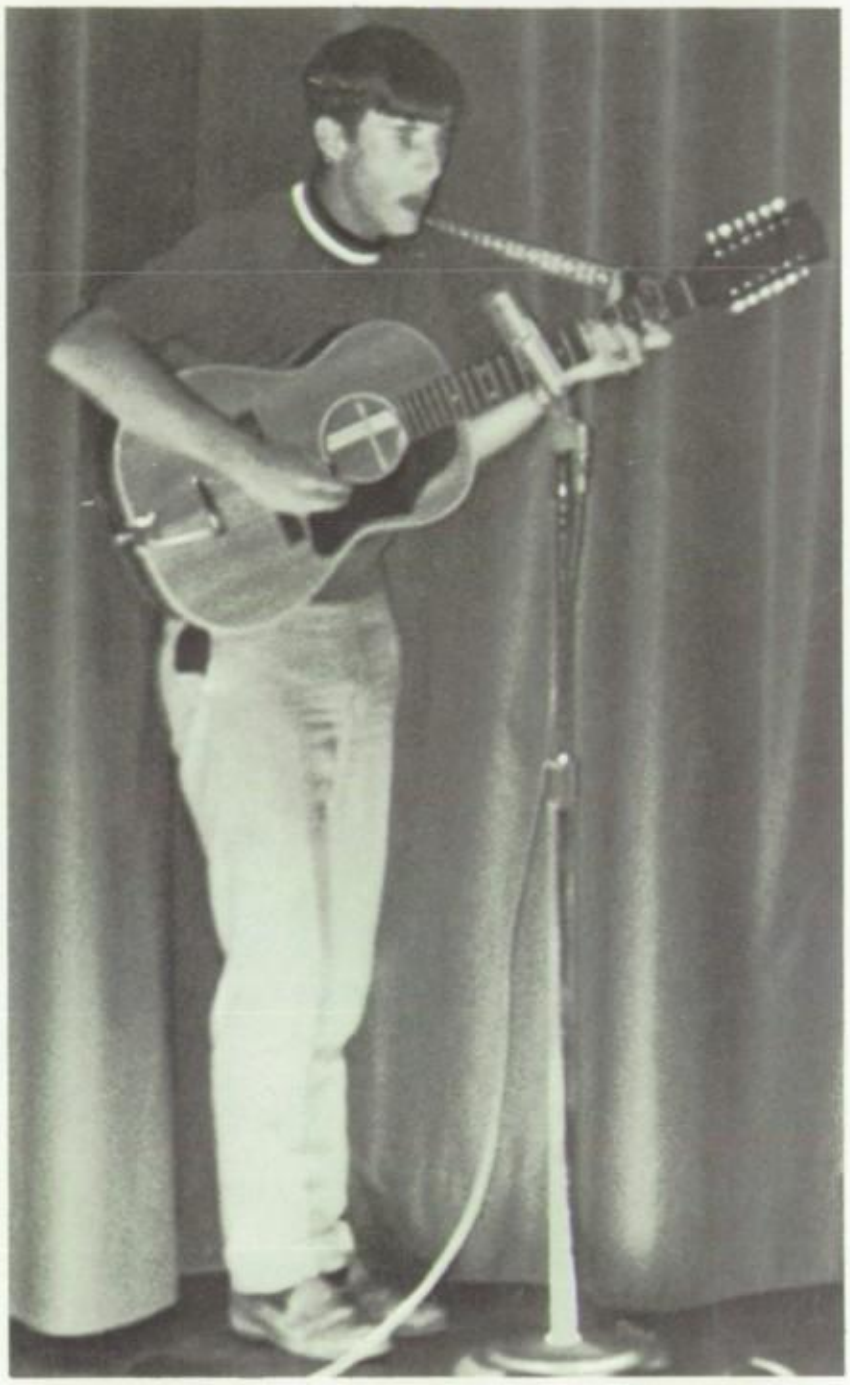
The Behrman Boosterettes in their finest pluck the strings of their banjos and charm the audience.

# *The Spirit Band's*

These prima ballerinas from the Behrman Band stole the show with their graceful and precise movements.

The Band has taken pleasure in presenting the Behrman Blast to grateful audiences for many years. This talented display has been a means of raising funds to finance the annual Band trip. The Blast promotes cooperative spirit among all participants.

Maria is surrounded by her seven unpredictable and lovable charges.



A song like the wind speaks invisibly from the soul.

*of the Blast*

Maria is shocked by the Captain's disciplinary procedures.

Steve Perry, Stuart Vaughan, Nina Polan, and Dillon Evans are pictured in a scene from the New Orleans production of William Shakespeare's "A Midsummer Night's Dream"!

Students are preparing to leave for the theater.

"So, that's where it is!"

# *The Theater*

Stuart Vaughan and Suzanne Grossmann are pictured in a dramatic scene from the Repertory Theater production of George Bernard Shaw's "Saint Joan".

Expectation is great among students!

"Make up your mind. We've got to take one of them."

COACH MICHEL

COACH'S MESSAGE

Due to numerous injuries to key experienced players for extended periods of time, most of our games were played by young inexperienced players. Although we won only two games, we feel the experience gained by our young players was most valuable and definitely advantageous for our future plans. We feel that we have the nucleus for a good team next season and will prepare diligently for the coming year.

E. Michel, Jr.

for its unending extension of services, Mr. Paul's unextinguishable patience, and his unsurpassed quality in photography. A yearbook of fine quality is impossible without fine photography; and when the photography is as excellent as that Mr. Paul has given Behrman, the staff finds it difficult to express its appreciation.

# *Spirit Is —*

Sitting in the rain to watch a football game,
Returning a library book on time,
Going up the "Up" staircase,
Resisting the urge to cut into the lunch line,
Throwing trash into the wastebasket instead of the desk,
Buying at least one football sticker a week,
Learning the words to the Alma Mater,
(And then trying to sing them to music),
Listening to your homework assignment the first time,
Erasing doodle marks from the desks,
Being nice to a substitute,
Listening for your name in roll call,
Preparing your six-weeks project ahead of time,
Bringing your own pen to class,
Reading your Behrman Rule Book,
Attending school the day after the Ring Dance,
This, Behrmanite, is SPIRIT.

# Want

Sandy:
This has been a great year but I won't be saying good-bye because I know I'll be seeing a lot more of you in the Quarter. Best of luck in everything you do and don't change your attitude toward anything. I'll invite you to the wedding which I hope will be soon.
Never put bread before happiness and remember make your bread by doing your thing. If his life is a bummer don't like it as a trip
